

WINTER HAVEN

Rome, Georgia

www.GeneralShale.com

COLOR DISCLAIMER: Please be advised that the Winterhaven is not intended to have a solid white face coating. While not present on every brick unit, there will be very apparent small scuffs throughout the run where the white face coating is intentionally blemished during the manufacturing process. The brown body of the brick will be visible where these scuffs occur. Should you desire a monotone white appearance, we recommend that you paint our 5-Points Artisan product with a breathable mineral paint.
