DELGADO STONE

EST. 2011

Quality - Customer Experience - Innovation

When I founded Delgado Stone Distributors in 2011, my vision was to provide the highest quality natural stone veneer in the industry. As we have grown, our company has reached milestones I never dreamed we would achieve. Our commitment to quality has contributed to our growth, but what has separated us from other stone companies is something far more important: People.

You as the customer, our Authorized Dealers, and each member of our team have made us who we are today and inspire us to create a better tomorrow. We have made a commitment to three core competencies: Quality - Customer Experience - Innovation.

I am very proud of the products we offer and the company we have become. It has been an exciting journey and we look forward to what the future holds for our company and the people we positively impact along the way. I would like to personally thank each one of you for selecting our products and people to help make your next project a reality.

Brendon Southard
Founder & President

Liberty Hill Sawn Steps
Photo: Stephens Landscaping Professionals (NH)

Choose between two beautifully unique options of stone steps. The Quarry Steps provide a rough natural texture. While the Sawn Steps also provide the beauty of natural stone with an added ease of installation.

Natural stone landscape materials can be used to transform landscape design projects in a number of ways.

Steps & Landscape Material

There are two variations of palletized flagstone. The sawn and split options can add a natural stone element to any walkway, patio, pool or coping project. The characteristics of the two different types help fit the design needs of a range of outdoor spaces.

Thin Stone Veneer: Available in 9sf increments with 54sf and 108sf pallets inventoried at our facility.

Thin stone Corners: Packaged in crates and offered in 6lf, 50lf, and 100lf quantities.

Full Bed Veneer: Available by the ton on pallets or bulk delivery. One ton of full bed veneer covers approximately 35sf-50sf.

We offer truckload, pallet, bulk, and container shipping nationwide. Our LTL per pallet program typically arrives in 1-2 days within our Authorized Dealer Network.

DELGADO STONE

Delgado Stone prides itself on sourcing and bringing you a high quality stone veneer with a distinctive product line unlike any other.

We carefully select and source our stone from quarries and fields throughout New England, New York, and Pennsylvania. Our stone is cut on state-of-the-art machinery, run by our experienced production team, to ensure quality and consistency throughout the entire process. Each stone is palletized by hand and neatly packaged to ensure it arrives to you in the same condition as when it leaves our facility.

Our stone is 100% natural and variations in color and texture may occur without notice. The pictures in this catalog feature Delgado Stone products installed by professionals.
