ABOUT ROMABIO

Founded in 2009 and headquartered in Atlanta, GA, Romabio has been on a mission to change the way the world makes paint. Romabio designs elegantly luminous mineral-based paints, different than traditional acrylic paints because of their high performance, durability, beauty, and natural, clean ingredients. Mineral paints are the ideal paints for mineral surfaces like brick, stone, or stucco and Romabio products provide unique finishes for all types of surfaces with beauty like no other.

ITALIAN ROOTS & INSPIRATION

The Romans have always been inventors and artists in paint manufacturing. They created Venetian plasters using lime from the Italian Dolomite Mountains, and their respect and love for the environment inspired us to achieve the same effects with our innovative technologies designed and crafted in Italy.

PRODUCT OFFERING

Romabio has an array of products all with similar characteristics and benefits because they are all mineral-based—potassium silicate, slaked-lime, or other mineral-based formulations. When you create paints with natural ingredients, it allows for unique properties and performance. Take a look at our products and see why Romabio paints are different.

Classico Limewash * Masonry Paints * Lime Slurry
Velatura Mineralwash * Venetian Glaze * Interior/Exterior Mineral Paints
Authentic Italian Plasters * Unico Plaster System

CLASSICO LIMEWASH®

is an authentic slaked-lime paint handcrafted in Italy with Dolomite lime using 2,000 year-old techniques combined with a modern formulation for ease of use. You can create unique wash-off effects for artistic and charming Old World looks or a Modern finish.

“

*I have nothing against natural brick.
I think it's beautiful. But I am a sucker
for that European lime washed brick.*

— Lauren Shaver at Bless'er House Blog

MASONRY PAINTS

are mineral-based paints made with potassium silicate for extreme durability and a breathable and beautiful flat finish that calcifies to the surface. When applied properly, they have a 20-year warranty. Two finishes are available; Masonry Flat and Masonry Textured.

LIME SLURRY

is an authentic, Italian lime paint used for textured finishes. A dense, highly concentrated paint that is applied almost like a plaster for a dramatic slurry effect.

“

I love historic homes and the chalky look of masonry paint so I did some research and ended up falling in love with Romabio Masonry Flat paint. Tyler (Killowen Construction) had never worked with a paint like it before on an Exterior, but we both loved the way it both lets the brick breathe and hides imperfections.

— Shea McGee, of Studio McGee

VELATURA MINERALWASH

is an authentic mineral-based paint used to create Interior limewash movement effects for soft tonal variations. Easily applied in two coats and requires no primer, it is perfect for a decorative unique finish.

VENETIAN GLAZE

is a versatile, authentic Italian lime glaze paint that creates multiple effects. Apply it undiluted with a trowel to create a plaster-like finish on Interior walls that can be flat or burnished easily. Heavily dilute it and use it on stone or brick for veiling effects to color shift, or use it on stucco for mottling effects.

INTERIOR/EXTERIOR MINERAL PAINTS

are mineral-based paints designed like traditional paints for a high-performing finish yet are flatter in sheen, odorless, and more luminous. They come in four sheens including SuperFlat (Interior only) perfect for ceilings, Matte (Interior only) for a natural, flatter sheen that is washable, Low Lustre Interior/Exterior for a soft eggshell finish, and Satin Interior/Exterior, for a durable low gloss finish.

AUTHENTIC ITALIAN PLASTERS

are slaked-lime plasters for the Interior/Exterior created with traditional methods for unique beauty and elegance. Italian Dolomite lime is cooked, slaked, and then aged for 9 to 12 months and a modern proprietary formulation is utilized to create its exceptional ease of use designed for Professional applicators.

WHY ROMABIO MINERAL PAINTS

PERFORMANCE & DURABILITY

Romabio mineral paints are breathable, highly permeable, long-lasting, and have excellent UV resistance with oxide pigments. They are extremely durable as they calcify to absorbent masonry surfaces and when applied properly, do not peel, chip, or flake off.

BEAUTY LIKE NO OTHER

Romabio mineral paints are naturally beautiful and have luminous colors with dynamic light refraction. Our paints have flatter, more natural sheens giving you a modern, yet natural aesthetic.

VIBRANT COLORS

Romabio mineral paints can be tinted to a wide range of light to dark colors based on the base type of the product. For Romabio Classico Limewash and Lime Slurry, they only come in light to medium colors, and for all other products, you can tint from light to darker colors.

ODORLESS & TOXIN FREE

Romabio mineral paints do not have added toxins producing little to no odor and are Zero VOC. You can trust our paints are safe for your family, pets, and the environment.

EASY APPLICATION

Romabio mineral paints are easy to apply and almost all are perfect for DIYers and Professional applicators. Some are only 1-2 coat processes and do not need a primer for certain surfaces.
