

# Why Arriscraft?

**Our stone looks so natural and performs so well because we replicate how stone is created in the earth – using only natural materials.**

## Natural Aesthetics

In terms of exterior stone options, Arriscraft gives you the best of both worlds – the beauty and performance of natural stone and the cost-effectiveness of a manufactured product designed for standard installation.

For over 60 years, we have made our premium stone using only natural materials – creating a superior product to other manufactured stone.

## Smart Benefits

Masonry homes are a smart choice for so many reasons! Brick and stone houses are safer, more energy efficient and much easier to maintain than those built with vinyl or wood. You'll enjoy lower costs and better security from day one. Plus, masonry homes are the gold standard for resale value – delivering 5-10% more on average.

Weather Resistance

Environmentally Friendly

Maintenance Free

Lower Utility Bills

Lifetime Warranty

Lower Insurance Premiums

# Create Value

Arriscraft stone falls between brick and quarried stone, when priced by the square foot. We also manufacture a gorgeous selection of brick which can easily be incorporated into your home design. Our sales representatives or dealers can work with you on product combinations.

**The additional cost of Arriscraft stone over vinyl is only about \$30/bi-monthly payment\*. Or the cost of a daily coffee!**

\* Based on an average size home using 2,000 square feet of stone.

# Build Your Dream

Because we have complete design control, we manufacture more than a dozen stone styles, as well as Renaissance® masonry units. Whether you prefer the crisp, clean lines of a contemporary design or the robust character of field stone, we have a style just for you.

Please visit our website to review our styles and download our **Residential Brochure**. Your **local dealer** will have samples and colour swatches.

Choose from dozens of stone styles in natural colours!
