

Make it unique with Blends Edge Rock/Shadow Stone®

Our Shadow Stone® and Edge Rock Building Stone have a unique finish that is both modern and warm. A stunning ledgestone, Shadow Stone® features split face finish and natural color options enhance the aesthetics of authentic stone. Robust, split faced Edge Rock provides a modern feel, but with a rugged twist.

Both of these stone styles are beautiful on their own, but when blended, they are ideal for those craving something different. The colours and sizes of these products are perfectly suited to be combined.

*Shadow Stone® Avalanche/ Edge Rock
Glacier (Indiana Blend)*

*Shadow Stone® is offered in three sizes (2-5/16", 5", 7-5/8") and seven colours.
Edge Rock is offered in two sizes (4-15/16", 10-1/4") and four colours.*

PRO TIP:

Edge Rock EDG102 bonds out with two EDG50s or Shadow Stone® SHA50s, or 1 SHA22 and 1 SHA75. The larger 10" size and subtle range of texture produced by incorporating Edge Rock with Shadow Stone® evokes a timeless look that can only be found with higher priced quarried products.
