

Monumental Character

Adair[®] Parliament

This quarried Adair limestone, in a rugged split face finish and natural sepia tone, makes a strong statement. Parliament features three face rises, offered in random lengths up to 35-5/8". Designers can choose a coursed installation, using one size, or a more traditional ashlar pattern. A perfect choice for stately designs meant to last forever.

- Three face rises (3-5/8", 7-5/8", and 11-5/8")
- Lengths up to 35-5/8"

Photographs represent colour, range and texture as closely as the printing process allows.
