

Thin Stone

Our extensive thin products selection lets you incorporate stone on virtually any interior or exterior project. Lightweight and low maintenance, our thin stone options are efficient to install and, like all Arriscraft stone, deliver superior natural aesthetics and durability compared to other thin stone. We offer adhered or clip installation, plus diverse styles, finishes and colours!

Stack Cappuccino

ARRIS-tile Limestone

Stack Ice

Coatal White Cliff

Midtown 2-1/8" Blackcomb

Stack Sunset

Stack Ice

Our extensive thin products selection lets you incorporate stone on virtually any interior or exterior project. Lightweight and low maintenance, our thin stone options are efficient to install and, like all Arriscraft stone, deliver superior natural aesthetics and durability compared to other thin stone. We offer adhered or clip installation, plus diverse styles, finishes and colors!

Stack (Cambridge and Fort Valley)

Stack delivers the aesthetic of full bed stone, yet offers the ease of thin stone installation. A ledge style stone, Stack features an authentic, split face finish or a contemporary sawn finish. Three face rises in random lengths are conveniently pre-blended to create the ashlar configuration.

Coastal (Fort Valley)

The linear Coastal Series is an evolution of our popular Stack product, ideal for those that prefer a sleek look with a mortar joint. This versatility gives builders and designers a distinct option to the drystack look.

Midtown (Cambridge and Fort Valley)

Available in three sizes (2-1/8", 3-5/8", 5-7/8") and random lengths. With its natural, split face finish, Midtown is reminiscent of rustic, linear brick. The sizes of Midtown can be used individually or combined to achieve unique configurations. Stack, Coastal and Midtown are all available in return corner units for a seamless, natural finish.

ARRIS-clip and ARRIS-tile (Fort Valley)

Arriscraft Thin-Clad Units are versatile, surprisingly affordable and easy to install. ARRIS-tile is adhered, and ARRIS-clip units are simply 'clipped' to a substrate using a channel system. Available in three standard sizes and two finishes as well as return corner units.

Adair® Limestone Products (Cambridge)

Adair® Limestone is a quarried stone of exceptional versatility, value and beauty. The inherent warmth and strength of Adair® Limestone provides elegance, strength and sophistication.

Arriscraft Building Stone
Now Available Thin

You know our Building Stone products - from classic Citadel® to contemporary Shadow Stone® - come in a broad array of natural colours, profiles and finishes. There's truly a Building Stone for every aesthetic, and now we've made it even more versatile.

Our Building Stone is now available in a thin adhered format, so you can take that look everywhere. Fireplaces, interior feature walls, dormers – are now fair game...” for the look and feel of Arriscraft Building Stone.

We're stocking four of your favourites: Fresco Silverado, Shadow Stone® Steel Grey, Citadel® Infinity, and Laurier Opal, and are able to provide the entire selection of products in the thin format on a special order basis.
