Renaissance® Driftwood, Shadow Stone® Driftwood

Arriscraft products are unique in the world, delivering the most authentic, most durable and most unique stone products for the home. Our Natural Process™ technology combines natural materials (sand and lime), plus colour pigments, to create products with the aesthetics and durability of quarried stone.

Explore our vast style selection – from rustic to modern, from full-bed Building Stone to Thin-clad options – in a broad array of natural colours, profiles and finishes. You can even combine colour palettes and order unique colours through our customization options. Whatever your vision, we know you'll discover that your dream home is possible with Arriscraft.

Authentic Texture

Only Arriscraft stone offers this authentic look and feel. Competitive products look flat or shiny in comparison.

Arriscraft stone products are created with natural, raw materials*. Our unique manufacturing process is very simple; we combine sand and lime, just like Nature does to create stone. We then expedite the Earth's heat and pressure effects.

Since we don't add any synthetic binding agents or cement to our products, they are fully recyclable and the greenest choice next to quarried stone. Plus, their inherent strength makes them very low maintenance and incredibly long lasting.

As a manufacturer, Arriscraft is recognized for its continual efforts to reduce energy and resource use.

LIFETIME WARRANTY

All Arriscraft stone products come with a lifetime warranty.

*Only colour pigments we use are man-made.

NATURAL EDGE®

Our patented manufacturing process is unique in the world, so you won't find other stone products made like ours anywhere else. Remarkably, our simple process delivers superb durability and aesthetics – the same you would get from actual quarried stone.

PERFORMANCE

Naturally-made Arriscraft stone doesn't shrink, fade or discolour over time. All of our products (regardless of style or colour), age naturally, just as quarried stone does. It's smart to choose an exterior for your home that will look as good at age 25, as it does on day one.

SELECTION

Whether you prefer a traditional or modern home, you will love the options we have in diverse finishes, designs and colours. You can select from full-bed Building Stone, Thin-clad products, Renaissance® Masonry Units, and brick. Whatever your personal style, you can express it with Arriscraft stone.

INSTALLATION

Unlike quarried stone, which is very labour intensive to install, Arriscraft stone products are installed with standard masonry techniques. From our full-bed Building Stone to our versatile Thin-clad stone, all products are designed for efficient installation.
